Classification of the substance or mixture of Bee Safe Product represents this product qualifies for exemption from registration under the Federal Insecticide, Fungicide, and Rodenticide Act section 25(b). Minimal Risk classification 40CFR 152.25.

Reactivity Information:

Stability: Presents no significant reactivity hazard. Normally stable even at elevated temperatures and pressures. Not pyrophoric nor reactive with water. Does not undergo explosive decomposition, is shock stable, and is not an oxygen donor. Does not form explosive mixtures with other organic materials. Will not undergo hazardous exothermic polymerization.

Section 3. Components and Uses

Active: Peppermint oil (0.05%)

Inert:

Acetic acid (5%)
Water
Calcium carbonate
Sodium chloride
Wintergreen oil
Citric acid
Lecithin
Dextrin
Carrageenan

Uses:

Repellent for Bees, Wasps, Yellow Jackets, Hornets, and other flying insects.

Section 4.

Physical Data:

Specific Gravity 25/25c (H2O=1): .988

Vapor Pressure (at20C in mm Hg): ND

Water Solubility: Complete

Vapor Density (at 20C in mm Hg): ND

Appearance and Odor: Clear liquid with sweet peppermint aroma

Section 5.

Fire and Explosion Hazard Information:

Non Flammable

Non Combustible

No Irritating Material

No Corrosive Material

No Unusual Fire and Explosion Hazards

Fire Fighting Procedures: Use standard procedures

Section 6.

EMERGENCY AND FIRST AID PROCEDURES:

Eye (contact) **No** reported incident(s) of eye irritation with use of Bee Safe Insect Repellent. In the event of eye irritation proceed with a water irrigation to the eye(s) for at least 10 minutes and seek medical advice.
